EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David I. Klein on 3/7/05.

The application has been amended as follows:

In the claims:

Claim 7 has been canceled.

Claim 1, line 5, --and open communication therewith--has been inserted after "thereof".

Claim 1, line 6, --and in contact with-- has been inserted after "between".

In the specification:

Page 1, line 4, --, now abandoned-- has been inserted after "2002"

The following is an examiner's statement of reasons for allowance: The prior art does not pressure tank as claimed including a sealing washer installed between and in contact with the upper chamber and the inner chamber and where the recession around the hole in the inward protrusion is in open communication with the hole. Lombari (US 2005/0017016A1) as seen in Fig. 5A, the sealing washer 56 is not in contact with the upper chamber. To make the sealing washer 56 contact the upper chamber would have destroyed the reference. The recession in the inward protrusion is not in open communication with the hole as seen in Fig. 5A. To make the recession in open communication with the hole would have required hindsight.

The combination of Kirk, Jr. (US 3,534,475), Gnida et al (4,215,187) and Fanshier (US 2,522,258) do not provide the inward protrusion on the inner chamber or the recession in the inward protrusion, which is in open communication with the hole. The combination does not have the sealing washer between the upper chamber and the inner chamber in contact with the upper and inner chamber. To provide this structure would have required hindsight.

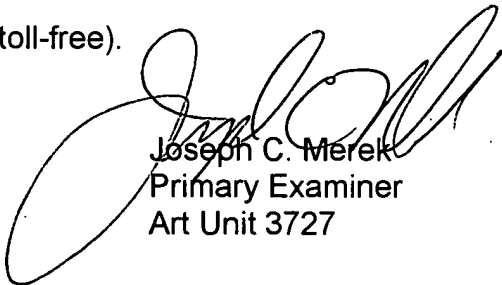

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
